POLICY HIGHLIGHTS

SINGLE PREMIUM IMMEDIATE ANNUITY

FUND SOURCES

The following list is a sampling of fund sources. Funds may also come from other sources.

Qualified Funds

- IRA Rollover from a:
 - Traditional IRA
 - 403(b) plan

 - Profit sharing/401(k) plan

Non-Qualified Funds

- Personal assets
 - Sale of home

TAX CONSIDERATIONS

Qualified Funds – If an annuity is purchased with pretax funds, all income from these funds would be taxable as the proceeds are received.

Non-Qualified Funds – If an annuity is purchased with after-tax funds, each benefit payment will be part principal and part interest. According to the Exclusion Ratio – a portion of each periodic benefit payment received is considered a return of principal, and therefore is not taxed. The remaining portion is considered interest earnings, and therefore is taxable as the proceeds are received.

Note: Federal income tax laws are complex and subject to change. The information on this sheet is based on current interpretations of the law. Neither Companion Life Insurance Company nor its representatives give legal or tax advice. Consult an attorney or tax advisor for answers to tax questions.

Premium taxes will be charged based on the premium paid and will be computed using current rates charged by the state in which the policyowner resides (not the annuitant). Premium taxes will be deducted from the single premium amount.
