

Treatment Cost Estimator Instructions

Before continuing on to the Treatment Cost Estimator, we recommend that you print this document. It outlines easy to use steps to obtain cost estimates for your state.

After being directed to the Agency for Healthcare Research and Quality, please follow these steps for easy searches:

1. Click on **state statistics from SID**
2. Click on **lay person, data novice**
3. Click on **specific diagnoses/conditions and surgeries/procedures**
4. Click on the **state** and the **most recent year's data**
5. Click on either **diagnoses/conditions** or **procedures/conditions**
6. Select the **type of condition or procedure** that you are looking for, **follow the steps** and make selections based on your needs. To receive cost information make sure the **hospital charges checkbox** is selected.
7. The results will be a **cost estimate in your area** for the hospital charges associated with your condition or procedure.
